#### **PLEASE READ AND NOTE THE FOLLOWING:**

*Bedford Mineral Right Organizations is a group of individual mineral rights owners who have agreed to band together and collectively negotiate for the lease of their individual mineral rights. Although each mineral rights owner retains the right to accept or reject the final negotiated agreement for the lease of their own mineral rights, these mineral rights owners have agreed to negotiate these terms as a group. Individuals working on behalf of BMRO, unless otherwise noted, do so as volunteers. The mineral rights owners joining the BMR agree to hold harmless any of the BMRO volunteers.*
